

# Full Stack

## Developer

MEAN Stack Developer with 1 year of hands-on experience in building scalable and user-friendly web applications. Passionate about writing clean code, solving real-world problems, and building efficient backend solutions. Actively engaged in Data Structures and Algorithms to sharpen problem-solving skills. A quick learner who stays up to date with the latest technologies and trends in web development, and always eager to explore new tools and frameworks beyond the MEAN stack.

### EXPERIENCE

#### Self Learning, Brototype, Calicut

##### *Full Stack Developer Intern*

January 2024 - Present

- Built multiple projects using the MEAN stack, including a fully functional e-commerce application.
- Implemented features like user authentication, product management, and secure admin panels.
- Worked with MongoDB Aggregation, REST APIs, and session management.
- Solved numerous problems on LeetCode, consistently improving DSA skills and developing strong logical thinking and debugging abilities.

#### Project Experience - E-Commerce Website

##### *Full Stack Developer*

February 2024 - March 2024

- Developed a perfume e-commerce platform with features like user signup/login, cart, order management, and admin dashboard.
- Integrated Google Authentication, OTP verification, and session handling.
- Designed responsive UI using Bootstrap and EJS.

#### Project Experience - Event Booking App

##### *Full Stack Developer*

March 2025 - Present

- Developed a full-featured event booking platform allowing users to browse, book, and manage events.
- Implemented user registration, login, and real-time event availability tracking.
- Created secure booking flow with validation, session handling, and payment simulation.
- Designed dynamic admin dashboard for managing events, users, and bookings.
- Ensured mobile responsiveness using Tailwind and Angular components.
- Followed MVC architecture and REST API standards for clean and scalable code structure.

### SKILLS

JavaScript  
TypeScript  
Node.JS  
Express  
MongoDB  
Angular  
SQL  
PostgreSQL  
HTML  
CSS  
Git  
Bootstrap  
Tailwind  
Data Structure and Algorithms (DSA)  
AWS  
NginX  
Figma  
Database Design  
API Documentation

### EDUCATION

#### Higher Secondary Education

GHSS Pudukkudi, Kerala

Completed: April 2023

Stream: Computer Commerce

#### Self Learning Program

Full Stack Development

Brocamp ( by Brototype ) | Calicut

Duration: January 2024 - Present

Focused on MEAN Stack development, real-world project building, and problem-solving using DSA.
